

inBay Car Wash System

SST

The inBay Self Serve Technology (SST) design is an all-in-one, compact unit that virtually anyone with water, power and air can have up and running in just hours!

The inbay SST is a ready-to-use, all-in-one self-serve system that saves the operator time and money and only requires a single power source and air/water supply to operate. Based on the popular i-Wash system, which was the **2005 winner of the Innovator Award of the Northeast Regional Carwash Convention**, the inBay SST is sure to be a success in generating more customers and profitability into your car wash business as well.

With a fully assembled stainless steel frame, and plug-in power and water supply, the inBay SST is only 18”d x 27”w x 81”h with NEW “Flex-Booms” included. With **tap-n-go credit card swipe** and an easy-to-use customer interface, paying and choosing for features will be easier than ever!

The inBay SST is perfect for lighter traffic locations and can be an alternative choice for existing bays that are looking for upgrading. Other businesses that will benefit from the ease and convenience of the inBay SST include commercial fleet services, apartment and condominium complexes and automobile dealerships and rental agencies.

Standard Features Include:

- Wax
- Pre-soak
- Tire cleaner
- Wash
- Rinse
- 2-color foam brush
- Bug Cleaner
- Tap-n-go credit card swipe
